2. The following is an examiner's statement of reasons for allowance:

Claims 1-21 and 23-26 are allowable over the prior art, since the prior art fails to teach or fairly suggest an analyzer comprising a microplate; a dispensing unit, including a linear dispensing comb having the structure recited in claim 1; a CCD camera being configured as recited in claim 1; and an optical system by which the luminescent light that is excited in the wells of the microplate, as a result of the dispensing, is transferred to the CCD camera for observation of a large-area rectangular field of the microplate, the large-area rectangular field being defined by the linear dimension of the linear dispensing comb in one dimension of the microplate and, in the other dimension, by at least one column of the microplate.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee.
